

PUBLICATIONS AND THESES ON ANTARCTIC AND SUB-ANTARCTIC BIRDS, 1988

J. COOPER & D. PILLAY

*Percy FitzPatrick Institute of African Ornithology, University of Cape Town, Rondebosch 7700, South Africa**Received 13 June 1989, accepted 6 September 1989*

SUMMARY

COOPER, J. & PILLAY, D. 1989. Publications and theses on Antarctic and sub-Antarctic birds, 1988. *Cormorant* 17: 19-26.

A total of 129 scientific publications and theses on Antarctic and sub-Antarctic birds for the year 1988 are listed by title. This annual list is produced by the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology as a service to marine ornithologists.

INTRODUCTION

In 1986 the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology recommended that a list of recent publications on Antarctic and sub-Antarctic seabird species from 1984 onwards be prepared.

The 1988 list, the third to be produced, has been compiled by scanning the relevant literature and abstracting services, and by correspondence with members of the subcommittee. Readers are requested to send reprints of their recent relevant literature, including ones missing from this and previous lists, to the authors for inclusion in subsequent lists.
