SUMMARY

PHILLIPS, C.M. 2001. Publications and theses on Antarctic and sub-Antarctic birds, 1998. *Marine Ornithology* 29: 97–101.

A total of 151 scientific publications and theses on Antarctic and sub-Antarctic birds for 1998 is listed by author. This annual list is produced on behalf of the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology as a service to marine ornithologists.

Keywords: Publications, Antarctica, sub-Antarctic, birds

INTRODUCTION

In 1986, the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology recommended that a list of recent publications on Antarctic and sub-Antarctic seabirds species from 1986 be prepared.

The 1998 list, the thirteenth to be produced and published in *Marine Ornithology*, has been compiled by scanning the relevant literature and abstracting services, and by correspondence with members of the subcommittee. Readers are requested to send reprints of their recent relevant literature, including ones missing from this or previous lists, to the author for inclusion in subsequent lists.
