MARINE ORNITHOLOGY
An International Journal of Seabird Science and Conservation published by the Pacific Seabird Group on behalf of the African, Australasian, Dutch, Japanese, Pacific and UK Seabird Groups ISSN 1018-3337

MANAGING EDITOR
Tony Gaston, Environment Canada

EDITORS
Rob Barrett, University of Tromsø, Norway (Europe)
Peter Dann, Phillip Island Nature Park, Australia (Southern Hemisphere & Africa)
Scott Hatch, US Geological Survey, USA (North America & Asia)

EDITORIAL BOARD
David Ainley, H.T. Harvey & Associates, PO Box 1180, Alviso, California 95002, USA
Lisa Ballance (Review Editor), Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, California 92037, USA
Alan Burger, British Antarctic Survey, High Cross, Madingley Road, Cambridge CB3 0ET, UK
Lloyd Davis, Department of Zoology, University of Otago, PO Box 56, Dunedin, New Zealand
Craig Harrison, 4953 Sonoma Mountain Road, Santa Rosa, California 95404, USA
Norbert Klagge, Institute for Environmental and Coastal Management, University of Port Elizabeth, PO Box 1600, Port Elizabeth 6000, South Africa
Bill Monteverchi, Biopsychology Department, Memorial University of Newfoundland, St. John's, Newfoundland A1A 1X9, Canada
David Nettleship, 4953 Sonoma Mountain Road, Santa Rosa, California 99504, USA
Henri Weimerskirch, 4953 Sonoma Mountain Road, Santa Rosa, California 99504, USA (Europe)
Yutaka Watanuki, School of Biological and Environmental Sciences, Murdoch University, Murdoch, Western Australia 6150, Australia
Sarah Wanless, School of Biology, University of Wales, Swansea SA2 8PP, Wales UK
Bill Sydeman, 25 Tideswater Lane, Allen Heights, Tantallon, Nova Scotia BOJ 3S0, Canada
John Croxall, British Antarctic Survey, High Cross, Madingley Road, Cambridge CB3 0ET, UK
Kees Camphuysen, Institute for Terrestrial Ecology, Banchory, Kincardineshire, AB31 4BY, UK
Lloyd Davis (Review Editor), Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, California 92037, USA

Species Names:
English names of species should be capitalized (e.g. White-chinned Petrel) but not the name of a group of species (e.g. petrels).
Scientific names of genera and species – but not family names – and foreign words should be italicized. Trinomials may be used only when accurately known and essential to the text. Both English and scientific names must be cited when a species is first mentioned but thereafter only one need be used. Metric units, decimal points and the 24-hour clock are to be used and dates expressed in the form 31 January 1947.

After Acceptance:
Page proofs will be sent to the senior author and must be carefully checked and returned within five days of receipt.

Page charges:
A contribution of US$300/paper charge by any other medium. Additional charges may be requested if figures have to be redrawn. Because papers are available for download from the website free of charge, reprints are not supplied.

Further details of the Instructions to Authors, see www.marineornithology.org

Marine Ornithology publishes full-length papers, short communications (usually less than three printed pages long), “forum” articles (papers on topics of general interest that express a particular viewpoint), book, website and software reviews, on all aspects of marine ornithology worldwide. Contributions dealing with coastal or inland seabirds such as gulls, terns, cormorants and pelicans will also be considered. Review papers or commentaries on important or emerging topics in marine ornithology are encouraged.

Authors do not have to be members of the sponsoring seabird groups. All contributions (except for book reviews) are submitted to at least two referees. If revised manuscripts are not received by the editor within four months of author’s receipt of editorial and referee’s reports, they will be treated as new submissions.

Contributions are normally published in order of acceptance, but electronic submission of original and revised manuscripts will greatly speed the process. We strongly encourage authors to submit in electronic format.

Language:
Contributions are received on the understanding that they contain novel work, conducted by the author, which has not been published, or is not under consideration for publication elsewhere. All contributions must be in English, but may use English or American spelling. A summary in another language will be included, if supplied by the author. Full-length papers must include a brief summary; short communications do not require a summary and usually do not include subheads. The style used in recent issues of Marine Ornithology should be followed carefully.

Submission:
Submissions should be sent to the relevant editor (see page iv) as e-mail attachments. The e-mail should include the title of the paper and the names of the authors. The text and tables preferably should be in MSWord, or rtf format. If another word processor is used, then an ASCII file of the text should also be submitted. Tables must be numbered in the order in which they are to appear, each on a separate page with the table number and title at the top.

Figures:
Figures may be submitted as MSEXcel, Adobe Illustrator, Postscript or .eps files (preferred), or as high resolution bitmaps (.tiff, .jpeg). Final versions may be requested in formats other than the one in which they were submitted. Potted full is preferable to grayscale for graphics. Colour images can be included in the web version and will be included in the print version on payment of a US$100/page charge.

If possible, papers should be submitted both as Adobe Portable Document Files (.pdf), including the figures (for review) and as MSWord documents (for editing). If you are unable to submit work in electronic format, please contact an editor for advice.

Photographs:
Photographs should be submitted as high definition bitmaps (.jpg, .tiff). We encourage the submission of relevant, original black and white photographs that can be used as space-fillers, if the opportunity arises.

Captions:
Captions for figures (which include graphs, maps and photographs) must be listed on a separate page, numbered in the order in which they are to appear.

References:
References should be listed at the end of the paper in alphabetical order of the first author’s name. Special care must be taken to ensure that they are written in the style used in Marine Ornithology.
